

Erice L

Design: Giorgio Bonaguro

Description

Erice L is a contemporary bookcase crafted in solid ash wood, distinguished by its bold geometry and sculptural presence. Wide monolithic legs and beveled shelves intersect in an apparently irregular composition, creating dynamic architectural lines inspired by the interlocking stones of cyclopean walls.

Available with wooden shelves or optional marble tops supported by ash wood undertops, Erice L combines premium materials with refined Italian craftsmanship. Both functional and artistic, this modern bookshelf brings character, elegance, and strong visual identity to living rooms, offices, or sophisticated interiors. Made in Italy.

Dimensions

90"1/2W x 15"3/4D x 82"5/8H
