

Linea D

Design: Matteo Zorzenoni

Description

Linea D is a contemporary designer desk that perfectly balances functionality and refined aesthetics. Defined by a strong graphic identity, its perpendicular legs in ash wood or lacquered finish emerge seamlessly into the top like architectural inlays, creating a clean and essential silhouette. The top, available in ash wood or lacquered finishes, enhances the desk's timeless linearity and modern appeal.

Two integrated drawers with a push-pull opening system provide practical storage, while a floating wooden drawer unit fixed to the leg adds visual lightness and sophisticated detailing. An optional cable pass-through in the side leg ensures an organized and efficient workspace. Ideal for a modern home office, Line D combines premium materials, minimalist design, and everyday functionality in a sleek, elegant solution. Made in Italy.
