

## Balestra Coffee Table

*Design: Andrea Casati*

### *Description*

The contemporary Balestra Coffee Table features an extensible design with synchronized revolving tops, available in glass or ceramic finishes. The base and supports are offered in painted finishes or with galvanic treatments, emphasizing a refined and architectural aesthetic. An integrated mechanism within the base allows the synchronized rotation of the tops, enabling flexible modulation of the table's shape. This system gives the table a dynamic character while maintaining a clean and contemporary presence.

### *Finishes & Materials*
