

Cadabra Coffee Table

Design: Andrea Casati

Description

The contemporary Cadabra Coffee Table is defined by an innovative synchronized rotation system that allows its tops to open in one coordinated movement. With a simple gesture, the surfaces rotate outward and expand, increasing the usable area while preserving a balanced composition. In its closed configuration, the table appears essential and compact. When opened, it transforms into a dynamic multi-surface layout, offering flexibility for everyday use while maintaining a refined, contemporary presence. Made in Italy.
