

Cassius Coffee Table

Design: Andrea Casati

Description

The contemporary Cassius Coffee Table features synchronized revolving tops that open in a smooth, coordinated movement, expanding the usable surface with ease. Available in glass or ceramic, the tops combine visual lightness with durability. The structure is defined by a base and supports in galvanized or painted steel, with additional options including painted glass or mirror bases, offering flexibility to match a variety of interior styles while maintaining a refined contemporary aesthetic.

Finishes & Materials
