

Foli Coffee Table

Design: Andrea Casati

Description

The contemporary Foli Coffee Table features an extensible design with synchronized revolving tops, available in glass or ceramic selections. The base and supports are finished in painted coatings, reinforcing the table's clean and cohesive aesthetic. An integrated mechanism within the base enables the synchronized rotation of the tops, allowing for ample modulation of the table's shape. This dynamic functionality gives the Foli Coffee Table a versatile character while maintaining a strong contemporary presence.
