

# Optical Floor-Suspension Lamp

*Design: Massimo Tonetto*

## *Description*

The contemporary Optical Floor-Suspension Lamp extends from floor to ceiling, anchored at the base by a cylindrical counterweight that secures a steel cable. From this structure rises a trihedral glass element, available in amber, smoke gray, or clear crystal, which diffuses a soft, ambient light. The structure, finished in natural or dark burnished brass, can be freely positioned within the space without installation constraints. UL Wired Certification.

## *Finishes & Materials*

**Structure:** Metal

**Shade:** Glass

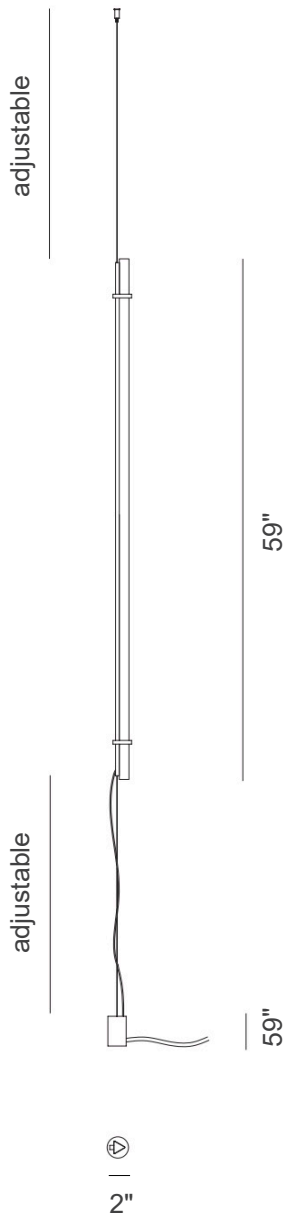

## Optical Floor – Suspension

---

### Dimensions

Size: Ø2" x Structure Height: 59"H - Total Structure Height is adjustable

### Model: Optical Floor Suspension

**Function:** Floor-Suspension  
**Location:** Interior  
**Light Emission:** Diffused Light  
**Light Source:** STRIP LED 11,5W/m 2700K, 2000 Lm/m  
**CRI:** 90+24Vdc, TOT= 17W 2960Lm  
**Energy Efficiency:** E  
**Rated Voltage:** 110V  
**Frequency:** 50-60Hz  
**Supply:** Dimmable Ballast Included  
**Cable Length:** 98"3/8  
**IP:** 20
