

Anzoleto

Design: Leo De Carlo

Description

A sophisticated example of handcrafted luxury furniture, this coffee table combines refined glass artistry with elegant metal detailing. The top is crafted from two layers of baked glass with irregular edges, creating a distinctive, organic silhouette that highlights the beauty of artisanal workmanship. Partial silvering on the back enhances the surface with subtle reflections and luminous depth.

Slender metal legs with a burnished brass finish provide a warm, refined contrast to the transparency of the glass, giving the piece both visual lightness and structural strength. Available in three different sizes, Anzoleto offers versatility and elegance, making it a striking addition to contemporary living rooms and sophisticated interior spaces. Made in Italy.
