

## Soazo

*Design: Leo De Carlo*

### Description

Sculptural and fluid, the Soazo coffee table elevates glass into a striking design element. Crafted in molten glass, both the top and legs are formed from layered baked glass with irregular edges, creating a dynamic silhouette that enhances light and texture. Available in three sizes, each version features a unique dégradé finish, from bronze to transparent, pink to blue, or green to midnight blue, enhanced by partial back silvering that adds depth and a luminous effect.

With its organic form and refined craftsmanship, Soazo is a contemporary coffee table ideal for luxury living rooms, bringing color, light, and artistic character to modern interiors. Made in Italy.

### Dimensions
