

Clizia

Design: Archirivolto

Description

Clizia is defined by essentiality and lightness, where soft yet precise lines create a refined and balanced silhouette. Discreet but full of character, its design achieves harmony through the contrast between a rigorous metal frame and the welcoming softness of the seat. The result is a sophisticated piece of luxury brand furniture that blends structural clarity with inviting comfort.

The slender frame outlines the lounge chair with architectural precision, while generous cushions shape the seating experience. Filled with goose down and covered in fine materials, the padding offers exceptional softness and a sense of relaxation. This interplay between structure and comfort creates a visual lightness that enhances the lounge chair's elegant proportions.

Designed for reading and conversation, Clizia introduces warmth and sophistication into curated interiors. Ideal for refined modern luxury living room furniture compositions, it combines discreet presence, premium materials, and timeless Italian design sensibility, delivering both comfort and understated elegance.

Made in Italy.
