

Kota

Design: Black Tie Studio

Description

Kota is a refined piece defined by the elegance of carefully combined materials, orchestrated in a harmonious composition that expresses both strength and restraint. Its rational design language is enriched by precious details, creating a balanced dialogue between essential geometry and sophisticated finishes. The result is distinctive luxury brand furniture with a powerful yet understated presence.

The structure appears to lightly support the visual weight of its noble materials, emphasizing balance and proportion. Every element is studied with precision, from the base to the smooth surfaces of the doors, whose tones enhance depth and luminosity. This careful interplay of textures and finishes creates a refined aesthetic rhythm that elevates the piece beyond pure functionality.

With its elegance and sculptural clarity, Kota integrates seamlessly into curated interiors and refined modern luxury living room furniture compositions.

Made in Italy.
