*Design: Black Tie Studio*

## *Description*

Medison is a table conceived as a tribute to the intrinsic preciousness of marble, expressed through a refined oval silhouette that enhances its natural material elegance. The soft sinuosity of the top, defined by a delicate half-round edge, lends sculptural grace and visual lightness to the composition. The result is a sophisticated piece of luxury brand furniture designed to elevate both dining rooms and refined work environments.

The supporting structure introduces a balanced contrast between the richness of the marble and the warmth of wood. Its clean, essential lines provide stability while maintaining a sense of lightness, allowing the tabletop to remain the focal point. This harmonious dialogue between materials reinforces the architectural clarity of the design.

A refined metal detail on the footrest adds a distinctive signature, emphasizing the precious character of the piece. With its sculptural presence, premium materials, and timeless proportions, Medison integrates seamlessly into curated interiors and modern luxury living room furniture compositions, embodying contemporary elegance with understated sophistication.

Made in Italy.
