

# Olimpia

*Design: Carla Palù*

## *Description*

Olimpia is a suspension lamp defined by a harmonious and hypnotic balance, conceived as a sculptural centerpiece for refined interiors.

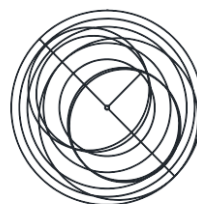

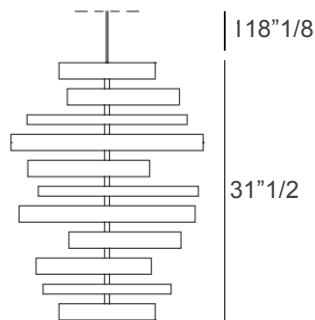

Its composition features a series of asymmetrically arranged circular elements rotating around a central rod, creating a dynamic structure that appears both rational and fluid.

The non-concentric circles share a common center while maintaining an intentionally irregular layout. The fixture is equipped with 12 G9 sockets (bulbs not included), with LED bulbs recommended for efficiency and performance and CE certification.

Made in Italy.

## *Dimensions*

Ø23"5/8 x 31"1/2H + 118"1/8 of Cable - Cod. BOLIM80G

Ø23"5/8

## *Finishes & Materials*

**Structure:** Stainless steel with galvanic finishing.
