

Omega

Design: Black Tie Studio

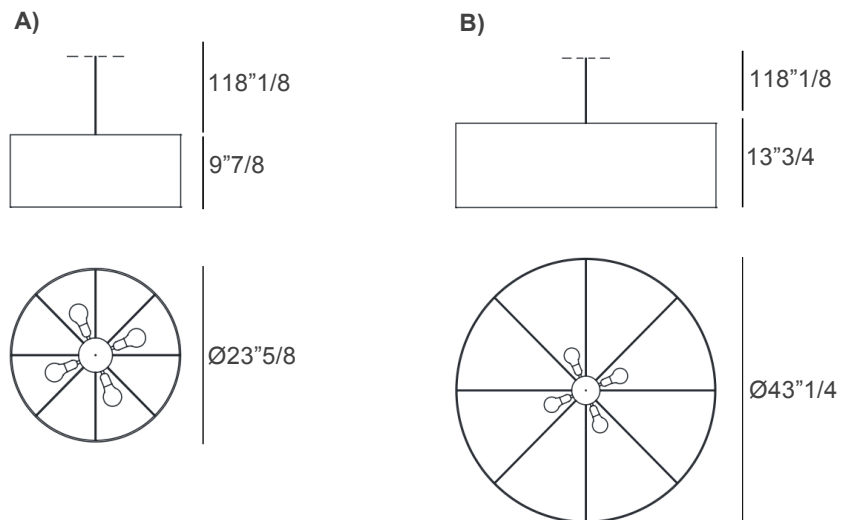

Description

Omega was conceived as a tribute to refined fabrics, where light becomes an integral furnishing element. The composition is defined by an interplay of patterns and diameters, allowing the fixture to either harmonize with its surroundings or emerge as a distinctive focal point. This versatile aesthetic places Omega within curated designer lighting solutions designed to enhance sophisticated interiors. A discreet PVC diffuser sheet follows the circular form, ensuring an even and elegant spread of light. Omega is equipped with 4 E26 sockets (bulbs not included), with LED bulbs recommended for optimal efficiency and performance. CE certification ensures compliance with safety standards.

Made in Italy.
