

I Rosoni

Description

This refined coffee table is a striking example of classic designer furniture, where decorative artistry and masterful craftsmanship come together in a timeless composition. Its elegant silhouette is defined by a rich solid wood top, enhanced by a contrasting central band in walnut that adds depth and visual rhythm to the design.

The surface is further elevated by intricate chequered filleting and a precious central inlay featuring delicate “lace” motifs crafted from a variety of shaded exotic woods. Beneath the top, a sculptural solid wood sphere—accented with fine ebony filleting—creates a distinctive and sophisticated base, showcasing the level of detail and artistry associated with luxury Italian furniture.

Designed for both beauty and functionality, the table is equipped with discreet castor wheels, allowing for effortless movement without compromising its elegant presence. Perfect for refined interiors and curated luxury home furniture settings, this piece embodies a harmonious balance between ornamental richness, practicality, and enduring traditional style.

Made in Italy.
