

Theater

Design: Giuseppe Carpanelli

Description

This refined sofa reflects the comfort, elegance, and craftsmanship associated with a true luxury furniture brand. Designed with a contemporary aesthetic and balanced proportions, the piece combines architectural structure with soft, inviting volumes, creating a sophisticated centerpiece for modern interiors.

The sofa features a solid wooden structure covered with multi-density polyurethane padding, carefully engineered to provide lasting support and comfort. An internal system of interwoven elastic straps enhances the seat's flexibility and resilience, ensuring a comfortable and supportive seating experience. The seat cushions are removable and crafted from shaped polyurethane foam with varying densities, wrapped in soft cotton lining for an added layer of comfort.

Supported by an elegant metal base, the design balances structural strength with visual lightness. With its combination of premium materials, tailored upholstery, and contemporary design language, this sofa fits beautifully within sophisticated living room furniture sets, offering both comfort and timeless Italian style.

Made in Italy.
