

Althea V

Design: Carpanese Home

Description

Althea V is a refined vanity desk that balances rigorous geometric lines with elegant curvilinear details. Two distinctive metal inlays wrap fluidly around the entire structure, from the top to the drawers, forming integrated handles that enhance both the sculptural identity and everyday functionality of the piece.

Equipped with two practical drawers, Althea V includes a jewelry box and ring holder upholstered in soft econabuk, offering organized and luxurious storage. Two circular natural mirrors in different sizes complete the composition, reinforcing the harmony between aesthetics and function. Metal parts are finished in satin brass, bronze or galvanic gold, adding warmth and sophistication. A contemporary vanity designed for elegant bedrooms and dressing areas, where premium materials and refined craftsmanship meet timeless design. Made in Italy.
