

Arthur

Design: Carpanese Home

Description

Arthur is a sculptural designer desk where unconventional aesthetics meet everyday functionality. Defined by bold, curved lines, it stands out for its refined craftsmanship and sophisticated material contrasts. The base and drawer fronts are upholstered in premium leather with elegant stitching, while the wooden top and profiles highlight the tactile dialogue between natural wood and soft leather.

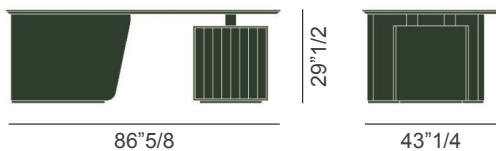

Available in two sizes, S with an integrated chest of drawers and XL with a generous peninsula that blends the functions of a desk and sideboard, Arthur adapts seamlessly to contemporary home offices and executive interiors. The drawers come with a lock for added security and practicality. Metal cylinders finished in satin brass or bronze add a luminous accent, reinforcing its luxurious and modern character. A statement piece that combines originality, functionality, and timeless elegance. Made in Italy.
