

Trio D

Design: Matteo Zorzenoni

Description

Trio D is a refined designer dresser where functionality and aesthetics meet in perfect balance. Its distinctive character lies in the contrast between the colorful central body and the minimal ash wood legs that rise seamlessly like inlays into the upper surface, creating a clean and contemporary architectural statement.

Designed primarily for the bedroom yet equally suited to an elegant entrance or living area, Trio D is available in two sizes, L and S, to adapt to different spaces. The structure and top are lacquered, with the option of a marble top for a more luxurious touch, while legs and handles are crafted in solid ash wood.

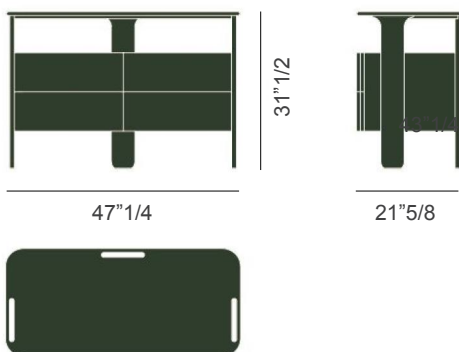

Customizable in a wide range of wood finishes, lacquer colors, and marble types, this modern dresser combines premium materials, versatility, and timeless Italian design. Made in Italy.
