

Apsara

Design: Ludovica + Roberto Palomba

Description

Sectional with base in protected aluminum, powder painted in carob color, made up of Afrormosia wooden slats, alternated with others in aluminum. The upholstery is completely removable, with piping in waterproof outdoor technical fabric.

Apsara is a modular seating system made up of bases in two depths: a more classic and an extra-large one, for those who prefer more comfortable and soft forms. The padded parts (backrest and armrest cushions), but also the small tables, can be fixed to the aluminum slats of the base thanks to stainless steel pins. The backrest and the armrests are therefore removable and can be fixed along the axis of the slats, allowing to change the depth of the seat. The seat cushion can be freely positioned on the base, with no need to fix it. The bases can be fixed and aligned with each other by means of clips to be hooked, only horizontally, to the slats. Decorative cushions available on demand. Made in Italy.
