

## River Lux 2.0

### *Description*

The River Lux 2.0 Umbrella by Atmosphaera is a masterclass in combining high-performance engineering with the organic warmth of natural materials. This luxury outdoor shading solution features a vertical and horizontal pole in aluminum treated with wood effect, offering the timeless beauty of timber with the structural stability and low maintenance of metal. Designed for expansive terraces, poolside lounges, and high-end hospitality settings, it provides a sophisticated sanctuary from the sun while enhancing the architectural lines of any open-air environment.

### *Finishes & Materials*
