

## Asia

*Design: Pier Luigi Frighetto*

### *Description*

Asia expresses a refined sense of rigor and balance, combining an office-inspired aesthetic with the comfort suited to residential interiors. Its sculptural silhouette introduces an aura of composed relaxation, making it a sophisticated seating option for both professional and home environments. Soft upholstery embraces the sinuous lines of the seat and backrest, creating a welcoming and comfortable experience. The gently enveloping form enhances the chair's refined character, while subtle structural details add visual rhythm without overwhelming the design.

The supporting leg structure reinforces the composition with architectural clarity, contributing to a balanced and poised presence. Its understated yet distinctive profile allows the armchair to integrate effortlessly into living areas, offices, or lounge settings. Elegant and versatile, Asia becomes a refined addition to curated luxury home furniture, bringing timeless sophistication and measured comfort to the interior.

Made in Italy.
