

## Thelma

*Design: Black Tie Studio*

### *Description*

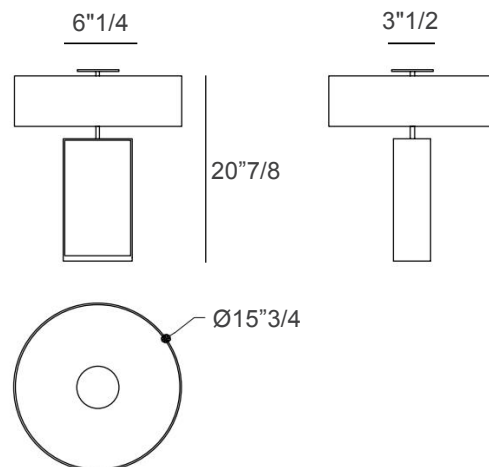

Designed to enhance a wide variety of interiors, it functions as both a luminous accent and a sculptural furnishing element. The standard version features White Carrara marble, while Thelma Couture is crafted in Port Laurent marble, creating two distinctive interpretations within the same elegant concept. Its carefully proportioned silhouette emphasizes the natural beauty of the marble, allowing the material's character to define the aesthetic. The structured lampshade introduces visual contrast while softly diffusing the light, creating a warm and inviting atmosphere.

Meticulously crafted to provide both diffused and downward illumination, Thelma becomes a refined focal point without overwhelming its surroundings. Made in Italy.

**Light source:** 2 x E26 - Bulb not included - Type F plug with type A adapter - CE certified.

### *Dimensions*
