

Alma Totem

Description

Alma Totem floor lamp transforms light into a poetic presence, combining sculptural elegance with refined materials. Blown glass and pleated fabric diffusers blend harmoniously, creating a soft and layered illumination that enhances the surrounding space. Its vertical composition introduces a sophisticated decorative accent, embodying the character of premium luxury lighting fixtures designed for contemporary interiors.

The sculptural silhouette and delicate tones create a light yet impactful presence, redefining environments with subtle elegance. Alma Totem functions both as a luminous source and as a design element, enriching living rooms, lounges, or hospitality settings with warmth and personality. This balanced approach reflects the essence of designer lighting, where form and atmosphere are carefully integrated.

Engineered to complement its internal geometry, Alma Totem uses a strip LED module custom made for the lamp's internal geometry. This technical precision enhances the visual continuity of the lamp while maintaining a refined aesthetic. With its architectural presence and innovative lighting solution, it stands out among curated luxury lights, offering timeless sophistication and distinctive character.
