

Arcipelago

Design: Servomuto

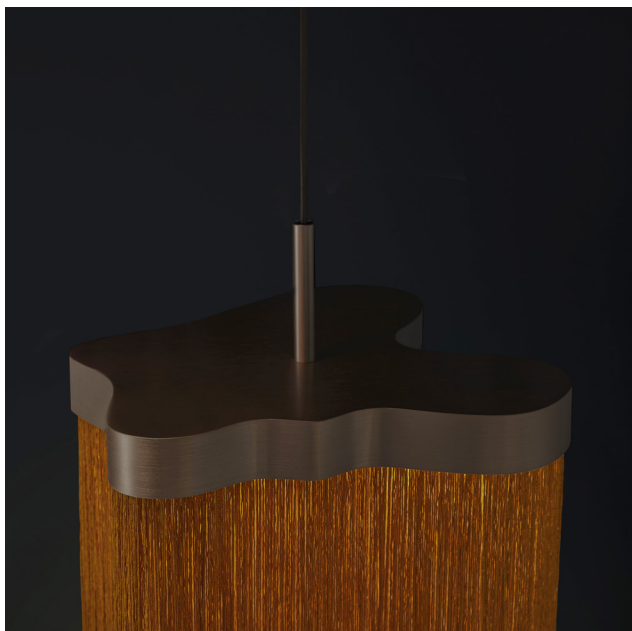

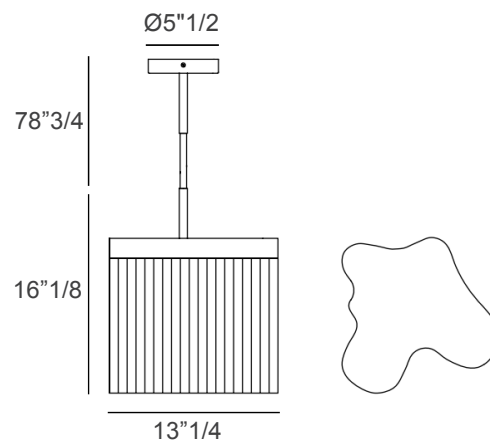

Description

Arcipelago embodies the refined aesthetic of Servomuto, combining decorative elegance with a strong sculptural presence. Its distinctive design features a bronze body enriched by fire-resistant Trevira CS fringes, creating a sophisticated interplay of texture, movement, and light. Characterized by its graceful curved silhouette, the collection is designed to create harmonious compositions that adapt effortlessly to warm and enveloping color palettes. The light source is a custom-made dimmable LED plate, offering both performance and atmospheric illumination. The collection features 78"3/4 of cable, with an optional extra cable length of 196"7/8, making it a refined and functional solution for elegant interiors and curated living room sets. Made in Italy.
