

Calypso

Design: Servomuto

Description

The Calypso floor lamp stands as a masterpiece of contemporary design, blending a sleek metallic stem with a functional marble side table. This integrated surface provides both utility and a touch of elegance, perfectly complementing the vibrant, handcrafted lampshades. As a hallmark of a luxury Italian furniture house, every detail is meticulously balanced to ensure that form meets function in the most sophisticated way possible.

Inspired by the sun-drenched spirit of the Caribbean, the three distinct models—Antigua, Guadeloupe, and Martinique—offer an extensive selection of premium finishes and patterns. The latest Sahara colorway enhances this luxury furniture collection by introducing a refined palette of soft, dusty tones and warm, earthy hues. These geometric patterns evoke a tribal essence, allowing for endless styling possibilities that transform any interior into a curated sanctuary.

Designed to create welcoming and intimate atmospheres, this versatile piece brings a sense of high-end comfort to modern residences. Whether placed in a reading nook or as a focal point in living room furniture sets, the Calypso lamp adds a layer of depth and texture to the home. Its combination of natural stone, rich textiles, and artisan craftsmanship ensures it remains a timeless staple of elevated interior styling.
