

Emma

Design: Contardi Studio

Description

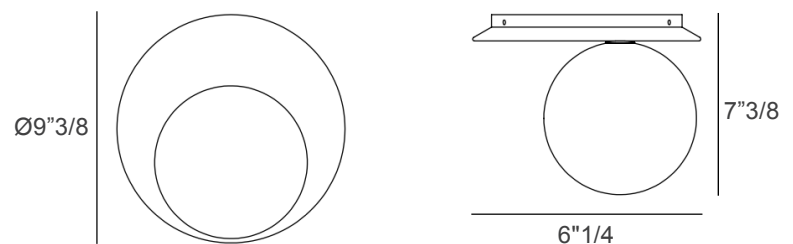

The Emma Ceiling Lamp is defined by the use of precious marble, a signature element that transforms the piece into a true design statement. The frame, crafted entirely in marble, highlights the natural beauty and uniqueness of the material, making each piece subtly one of a kind. At its center, a white opal glass sphere diffuser emits a soft, even glow, enhancing the purity of the design while creating a warm and welcoming atmosphere. Sold as a set of two lamps, the ceiling version allows for harmonious compositions and layered lighting effects. Emma's understated charm and sinuous shapes allow it to adapt effortlessly across a wide range of environments, from refined residential interiors to sophisticated retail and hospitality settings.

Made in Italy.
