

## Emma

*Design: Contardi Studio*

### *Description*

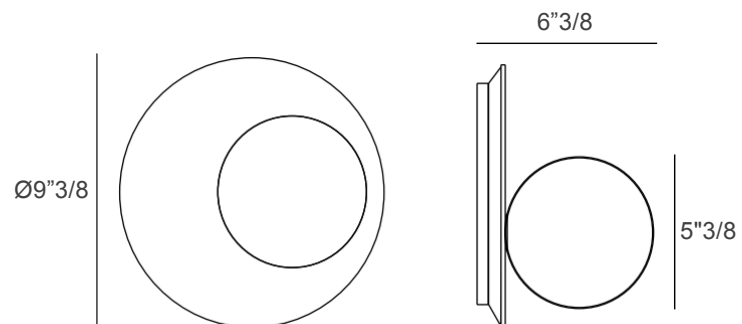

The Emma Wall Lamp is defined by the use of precious marble, a signature element that transforms the piece into a refined and sculptural design statement. The structure, crafted entirely in marble, highlights the natural veining and uniqueness of the material, ensuring each piece is subtly one of a kind. A white opal glass sphere diffuser emits a soft, even glow, balancing the solidity of the stone with a light and atmospheric effect. Sold as a set of two, the Emma Wall Lamp is ideal for creating symmetrical compositions and balanced illumination. Its understated charm and sinuous shapes allow it to adapt effortlessly to residential, retail, and hospitality settings, enhancing curated living room sets with refined elegance and warm ambient light.

Made in Italy.
