

Fly

Design: Massimiliano Raggi

Description

With its strong expressive presence, the Fly floor lamp transforms a graphic line into a sculptural element that both illuminates and enhances the surrounding space. Its slender silhouette introduces architectural elegance, making it a striking yet refined addition to contemporary interiors. Designed to balance visual impact with functionality, Fly reflects the sophistication of premium luxury lighting design for residential and contract environments.

Versatile and adaptable, Fly suits a wide range of settings, from living rooms and lounges to hospitality spaces. Its luminous profile creates a refined vertical accent while maintaining a sense of lightness. This thoughtful combination of form and performance aligns the lamp with curated designer lighting, where aesthetics and practicality coexist seamlessly.

Available in two heights, both versions feature dual light emission, providing direct and indirect illumination for enhanced atmosphere. The integrated dual touch control allows the light to be dimmed, offering intuitive adjustment and personalized comfort. With its sculptural presence and advanced functionality, Fly stands out among sophisticated high end light fixtures, delivering elegance, versatility, and contemporary character.

Made in Italy.
