

## Fly Multipla

*Designer: Massimiliano Raggi*

### *Description*

With bold expressive force, the Fly Multipla suspension lamp transforms its graphic design into a sculptural composition that both illuminates and captivates. Its clean, architectural lines create a dynamic presence while maintaining visual lightness, making it suitable for residential, commercial, and hospitality settings. This refined balance between form and function reflects the sophistication of premium luxury lighting fixtures designed for contemporary interiors.

The system features 340° rotating joints, allowing flexible positioning and dynamic compositions that adapt to different spatial requirements. Pure, lightweight luminous lines discreetly traverse the space, creating scenic and architectural lighting effects where form and illumination coexist in harmony. This innovative versatility aligns Fly Multipla with curated designer lighting, ideal for projects that demand both precision and visual impact.

Available in two dimensions, Fly Multipla offers dual light emission—both upward and downward—ensuring balanced and layered illumination. The suspension is supported by six steel cables for optimal stability, with an optional extra cable available to accommodate various ceiling heights. With its technical sophistication and sculptural clarity, it stands out among high end light fixtures, delivering elegance, flexibility, and architectural character.

Made in Italy.

### *Finishes & Materials*

**Frame:** Metal.

**Cable:** Steel..

## Fly Multipla

### Dimensions

- A) 59"W x 3"7/8H + 78"3/4 of Cable
- B) 94"1/2W x 3"7/8H + 78"3/4 of Cable

**Double Emission Light Source:** 2700 K - CRI >90 - Triac Dimmer

**Size A:**

Upper: 1 x 28.5W + 2 x 8W + 2 x 19.5W - Strip LED (10.050 Lm)

Lower: 1 x 20.3W + 4 x 9.8W - Strip LED (7.055 Lm)

**Size B:**

Upper: 1 x 98W - Strip LED 12.544 Lm

Lower: 1 x 99W Strip LED 12.672 Lm
