

Fly Outdoor

Design: Massimiliano Raggi

Description

Fly Outdoor interprets exterior spaces by transforming light into a refined design element capable of expressing personality under the open sky. Its clean, sculptural silhouette enhances landscapes with a contemporary architectural presence, creating a sophisticated balance between functionality and aesthetics. Designed for outdoor environments, the collection reflects the standards of premium luxury lighting fixtures suited for terraces, gardens, and hospitality settings.

Available in two heights, Fly Outdoor naturally accompanies pathways, driveways, and landscaped areas, guiding movement while shaping a welcoming atmosphere. Its vertical luminous profile introduces visual rhythm and depth, turning outdoor spaces into scenographic environments. This thoughtful approach aligns with curated designer lighting, where illumination contributes to both ambiance and spatial identity.

Fly Outdoor floor lamp uses a strip LED module custom made for the lamp's internal geometry. A black cable with IP68 connector is supplied for outdoor use, ensuring durability and reliable performance in exterior conditions. With its versatility and sculptural clarity, Fly Outdoor stands out among contemporary lighting fixtures, creating refined and inviting outdoor lighting experiences.

Made in Italy.
