

## G+T

*Design: Jan Van Lierde*

### *Description*

An innovative reading wall lamp, G+T is conceived as a portable and luxurious solution designed to meet specific space and installation requirements. Its refined versatility makes it ideal for distinctive environments such as yachts, historic buildings, and exclusive boutiques, where both functionality and elegance are essential. The lamp's head echoes the design of a cocktail jigger—an intentional reference reflected in its name, G+T (Gin & Tonic). This wall lamp is sold as a set of two, making it ideal for bedside placement. Designed for precise and comfortable illumination, this reading wall lamp enhances bedside areas, reading corners, and intimate spaces with focused light and refined visual balance. Its understated elegance makes it a perfect addition to sophisticated interiors and curated living room furniture sets, delivering both functionality and decorative character.

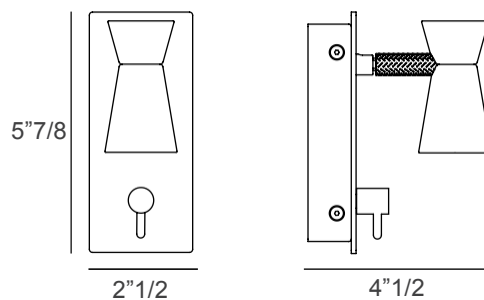

Made in Italy.
