

Ade Console

Design: G&C Lab

Description

The contemporary Ade Console is characterized by a steel tube structure combined with a wood or lacquered wooden frame and a drawer front available in wood, lacquered wood, or hide leather. Its clean and trendy design gives the console a refined and contemporary presence, making it an elegant solution for entrance areas and living spaces. Designed to enhance the concept of a pleasant and welcoming home, the Ade Console combines quality materials with reliable construction, offering both functionality and aesthetic balance within modern interiors.
