

Ark Console

Design: Nigo Design

Description

Conceived to adapt to different needs, the unique Ark console transitions effortlessly from an entry console into a full table, thanks to a special extension system and a top that can be doubled. Its structure is available in chromed or painted steel, paired with a double top in wood or lacquered wood. Always ready for use, the elegant Ark console finds its place in a variety of settings, combining functionality with a clear, contemporary design.
