

Daniel TV Stand

Design: Studio 28

Description

With a focus on lightness and essential form, the elegant Daniel TV stand expresses a balance between simplicity and precision. Its rigorous design is defined by a clear character, shaped by a combination of research, material innovation, and production technology. The structure is made of tempered glass and is supported by a steel or painted metal base. Equipped with a 360° swivel system, it offers both functionality and adaptability within a contemporary design language.
