

# Aurora

*Design: Luca Nichetto*

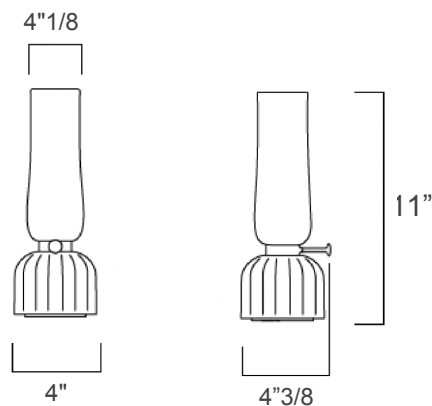

## *Description*

Aurora Table Lamp reinterprets the archetype of the historic Venetian oil lamp through a sophisticated contemporary vision, transforming a familiar object into a sculptural statement of light. The colored Murano glass base is crafted using a rigorously ribbed sixteen-facet mold and subsequently mouth-blown, resulting in a vibrant, substantial structure with exceptional depth and character. Its transparent diffusers feature an intricate twisted rigadin texture that enhances the interaction between light and material, generating luminous reflections and delicate optical effects. Fully integrated within the structure, the advanced lighting technology remains intentionally invisible, allowing the purity of form and the artisanal craftsmanship to remain at the forefront. Made in Italy.
