

## Saphir

*Design: Capital Creative Lab*

### *Description*

Saphir is a perfect blend of modularity and refined design, with various elements that combine to adapt to any need. Its suspended structure creates a sense of lightness, enhanced by a leather-covered base, a detail of pure sophistication. The backrest, composed of three elements – structure, cushion, and roller – envelops with sophisticated comfort, while precious marble tops integrate harmoniously, adding a timeless touch of luxury. A perfect balance of innovation, style, and prestige. Made in Italy.
