

# Beat

*Design: Daniele Lago*

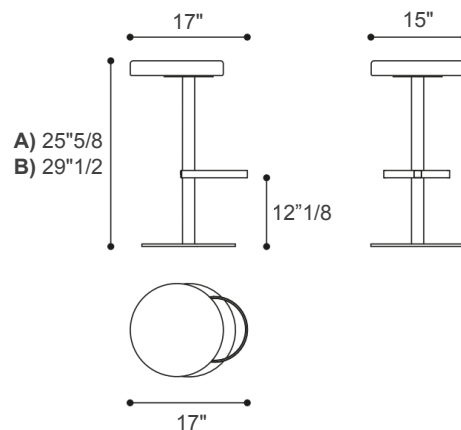

## *Description*

The Beat kitchen stool is defined by essential lines and rigorous geometry, expressing a refined contemporary character. The distinctive asymmetrical footrest, offset from the seat, introduces a dynamic graphic element that transforms functionality into a refined design statement, making Beat a striking piece of designer furniture for modern interiors. The innovative geometry of the stool creates a sense of movement and visual lightness, allowing it to integrate naturally into both residential and contract environments. Its elegant proportions and understated presence make it ideal for contemporary kitchens, open-plan living areas, and sophisticated hospitality spaces. Designed for maximum versatility, the Beat stool offers extensive customization possibilities, including multiple finishes for the base and footrest, along with a wide selection of premium fabrics for the upholstered seat. Made in Italy.
