

1371 Bar Cabinet

By Bellotti Ezio

Description

The Traditional 1371 Bar Cabinet is a refined expression of classic craftsmanship, combining elegant proportions with intricate decorative detailing. Its structure is enhanced by carefully executed inlays in canaletto walnut, erable, ebony, and maple, creating a rich composition of contrasting wood tones and natural grain patterns.

The decorative profiles are enriched with bronzed varnish, highlighting the marquetry and adding depth to the cabinet's design. Elegant carved decorative columns frame the piece, finished in polished canaletto walnut tonality and further enhanced with bronzed varnish and lacquered brushed mandarin details. These elements contribute to the cabinet's distinctive character and showcase the quality of its craftsmanship. Made in Italy.
