

25-1010 Dining Table

By Bellotti Ezio

Description

The Traditional 25-1010 Dining Table is a statement piece that celebrates the artistry of fine woodworking and decorative craftsmanship. Supported by two finely carved wooden bases, the table is finished in LAFM lacquered brushed French tempera white meringue, enhanced by gold leaf accents that highlight the sculptural detailing and elegant proportions of the structure (For the one shown in pictures). The tabletop is distinguished by a sophisticated arrangement of maple, canaletto walnut, and erable veneers, carefully selected to create depth, contrast, and visual richness. Decorative inlays crafted from rosewood, pear, and walnut further elevate the design. Made in Italy.
