

Holden

Design: Massimo Castagna

Description

The Holden Bed is defined by the meeting of two essential elements: a generously sized headboard and a low, compact bed frame that outlines the profile of the bed along its entire perimeter.

Designed for sophisticated, high-end sleeping areas, Holden introduces an essential language to the bedroom, composed of a few defining elements that create a precise balance.

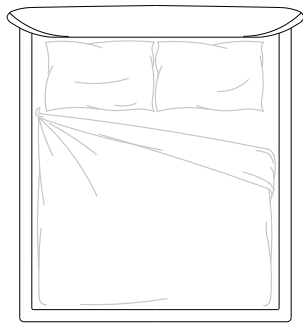

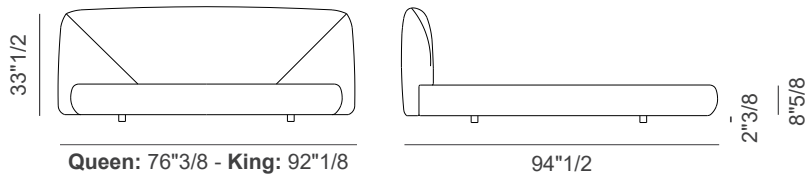

Its simplicity is only apparent: every detail stems from careful formal research and reflects a deliberate design choice, making it an excellent centerpiece for luxury residential interiors or premium hospitality master suites. Made in Italy.

Note: Bed base with slats included. Mattress not included.
