

Ruby

Design: Cattelan Italia

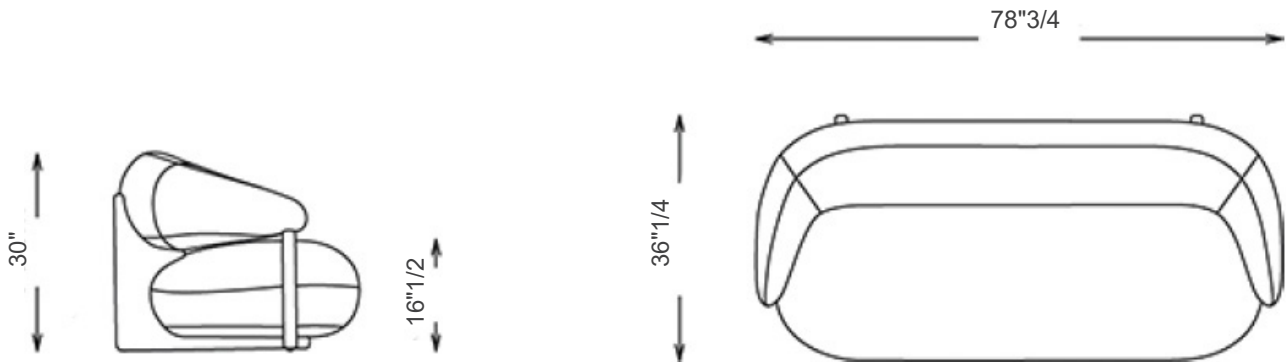

Description

The sofa or armchair features a structure in pine plywood, composite wood, and fir slats, designed to ensure stability and long-term durability. The seating system is supported by elastic webbing belts that provide balanced flexibility and comfort. The structure is padded with differentiated-density polyurethane (28 + 30 + 38) covered in resin-bonded polyester fiber to enhance softness and shape retention. The seat padding is made of 35-density polyurethane, also covered in resin-bonded polyester fiber for consistent support and comfort. The backrest combines a metal insert with foamed polyurethane (density 38), similarly finished with resin-bonded polyester fiber to ensure structure and ergonomic comfort.

The frame is crafted in ashwood and available in Canaletto walnut-stained or burned oak-stained finishes, emphasizing a refined natural aesthetic. Upholstery is offered in fabric or leather according to the sample card, with non-removable covers in both versions. The overall comfort level is semi-firm, rated 7/10. Made in Italy.
