

Senator Keramik Magnum

Design: Cattelan Italia

Description

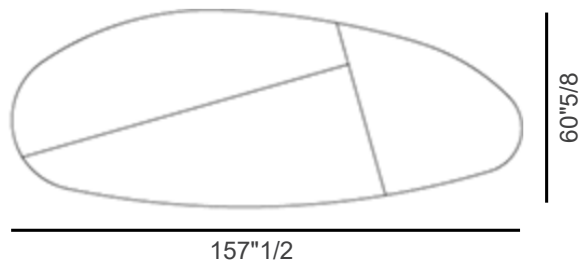

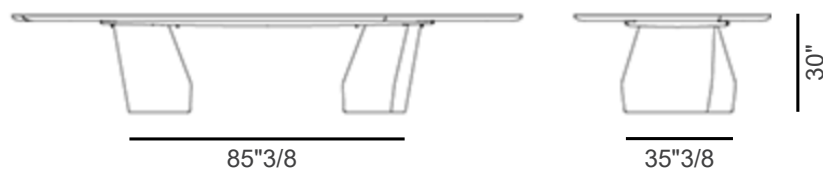

The Senator Keramik Magnum Table features a robust embossed lacquered steel base available in Titanium or Bronze finishes, engineered to support its monumental proportions with exceptional stability. The distinctive tabletop is defined by its irregular, puzzle-inspired composition, crafted from multiple marble-effect ceramic sections meticulously arranged to create a striking architectural surface. Canaletto walnut inlays accentuate the intersecting geometry, adding warmth and visual contrast while highlighting the table's artisanal craftsmanship.

A lacquered embossed MDF lower structure, finished to match the base, provides visual continuity and reinforces the table's sculptural presence. The ceramic top is available in an extensive selection of premium marble-inspired finishes.

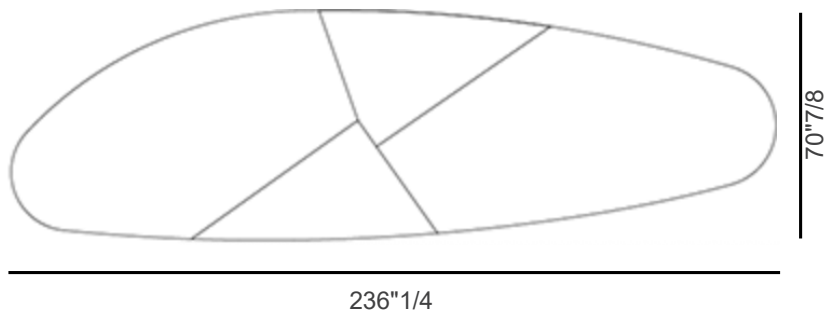

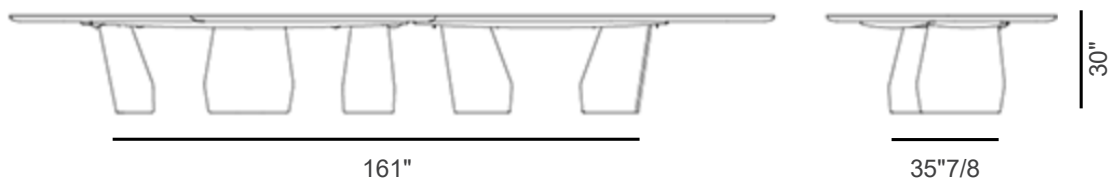

To facilitate transport and installation, the top is supplied in multiple sections: three pieces for the 157 1/2" version and four pieces for the 236 1/4" version. Made in Italy.
