

Arkadius

Design: Norm Architects

Description

The Arkadius sectional redefines contemporary living through a seamless balance of architectural expression and everyday comfort. Defined by its exposed vertical wood structure, the design creates a refined rhythm that frames the upholstered modules, establishing a distinctive visual identity while maintaining a sense of warmth and softness. Clean lines, generous proportions, and carefully balanced volumes give the sectional a timeless presence that enhances both residential and hospitality interiors.

Every detail reflects a commitment to understated elegance, where structural clarity and exceptional comfort exist in perfect harmony. Designed to transcend trends, the Arkadius sectional offers a sophisticated interpretation of contemporary living, combining architectural character, modular versatility, and enduring craftsmanship.

Made in Italy.
