

Rhode Sofa

Design: Giuseppe Viganò

Description

The Rhode Sofa is a high-end linear seating system engineered for premium residential and commercial interior design projects. Built upon a versatile modular foundation, this contemporary design features soft, enveloping forms with continuous lines connecting the seat cushions and the wide, rounded armrests.

The structural integrity is maintained through an internal frame constructed from high-durability materials, padded with differentiated-density foam to guarantee long-term ergonomic support and shape retention. A signature aesthetic and material detail includes recessed solid wood inserts embedded into the outer profile of each armrest.

The system is supplied in three standardized, pre-configured layouts to fit specific architectural requirements: Composition A (three-module symmetrical layout), Composition B (compact two-module configuration), and Composition C (two-module extra-wide configuration). Handmade in Italy, the Rhode Sofa combines geometric precision with refined craftsmanship to serve as a structurally sound and visually striking focal point in any upscale living environment.

Finishes & Materials

Cover: Fabric or Leather.

Frame, Feet & Wood inserts: Canaletta Walnut.

Internal Structure: Poplar and fir plywood, with elastic straps arranged in parallel.

Padding: Layers of foams with different densities, covered with hypoallergenic fiber
