

Canone Inverso Dining Table

By TREVISAN Glaunicco

Description

Inspired by the structure of a musical composition, the Canone Inverso Dining Table reimagines the concept of tables through a dynamic interplay of contrasting forms, refined proportions, and exceptional materials. Like the notes of a score, each element contributes to a harmonious whole, creating a sculptural presence that is both functional and expressive. The warmth of Amara Ebony or the luminous elegance of Frisé Maple, while hand-painted gold or silver leaf introduce richness, texture, and artisanal character. Every finish is carefully crafted to highlight the natural beauty of the materials, celebrating the dialogue between tradition and contemporary design. Made in Italy.

Finishes & Materials

Legs: Textured Wood

Top: Wood
