

Ocean Daybed

By Cane-Line

Description

The Modern Outdoor Ocean Daybed, designed by Cane-line Design, blends modern design with traditional craftsmanship in a sculptural rounded form. Its voluminous silhouette is crafted from durable Cane-line materials on a strong aluminum frame, while integrated wheels make it easy to move around outdoor spaces. The weather-resistant materials are well suited for outdoor use, and the ultra-soft cushions add a comfortable, inviting feel. Featuring the QuickDry & Airflow system, the cushions are designed to dry approximately one hour after a downpour, making the Ocean Daybed a practical and relaxing addition to outdoor lounge areas. Made in the EU.
