

Space Sofa

By Foersom & Hiort-Lorenzen MDD

Description

The Modern Outdoor Space Sofa, designed by Foersom & Hiort-Lorenzen MDD, offers a flexible and contemporary approach to Scandinavian outdoor living. Its modular concept makes it possible to combine different materials and functions, allowing the overall look to adapt to your preferred setting. The back and side modules can be transformed into side tables, making it possible to convert the sofa into a sunbed, while tabletop options in different materials provide additional design flexibility. Upholstered in soft Cane-line AirTouch fabric, the sofa offers high lightfastness, dirt-repellent properties, and lasting durability. Made in the EU.
