

Maki Extendable

Design: Bartoli Design

Description

The Maki Extendable Table by Bartoli Design is a contemporary dining table defined by rounded detailing, precise construction, and an integrated extension system. The softly curved tabletop and legs create a distinctive profile while maintaining a clean, minimalist appearance. Available in multiple sizes, the table can be fitted with an optional third extension leaf to increase seating capacity.

Tabletop options include Linecompact® laminate, Pure White laminate, Fenix NTM® with a matching colored edge, wood, and DEKTON® by Cosentino. DEKTON® Aura (Digital Marble) features naturally random veining, making every tabletop unique. Variations from samples are inherent to the material, and uniform or matching grain patterns cannot be requested. Made in Italy.
