

AIR-DES0028 Dining Table

By Arteinmotion - Aeronautical Collection

Description

The Transitional AIR-DES0028 Dining Table is crafted from a Douglas DC-9 wingtip, turning an authentic aviation component into a striking dining or conference table. The original aircraft structure is preserved beneath a mirror-polished finish, emphasizing its aerodynamic form and distinctive engineering details. An extra-clear glass top allows the wingtip to remain fully visible while providing a practical surface for dining or meetings. Combining aviation heritage with a refined contemporary presentation, the AIR-DES0028 brings a strong sculptural presence to residential, office, and conference interiors. Made in Italy.
